TECHNICAL INFORMATION

INDIVIDUAL SPRINT

Saturday 10 April, morning, with the first starts very early so the race finishes before visitors arrive in the historic centre. Direct qualifier for the elite knockout.

- **Terrain:** medieval historic centre, with cobbled streets, narrow alleys, arcaded squares and flights of steps. Pedestrian traffic.
- **Map:** current ISSprOM standard.
- **Classes:** all official championship classes.

OPEN SPRINT

Saturday 10 April, afternoon, before the knockout, in the north area. Open to everyone as an unofficial race, separate from the knockout: it does not qualify for it and does not count towards the championships.

KNOCKOUT SPRINT

Saturday 10 April, afternoon, after and separate from the open sprint, for men's and women's elite only.

- **Terrain:** north area, urban and residential, with runnable parks, schools and sports facilities. Fast courses with route choice between artificial barriers.
- **Qualification:** from the morning's individual sprint. Semi-finals in three heats of six runners; the top two in each heat go through to a six-runner final.
- **Quarantine and warm-up:** at the event centre, under cover.

MIXED SPRINT RELAY

Sunday 11 April, morning, at Campus Norte, finishing before midday.

- **Classes:** the official classes under the championship rules.

TIMING

SportIdent Air+ at all races.
